Request for Proposal to provide engineering and design services for the Hoh Indian Tribe Resiliency Center Building Project

The Hoh Indian Tribe is seeking to retain the services of a qualified and experienced civil engineering consultant to design and complete the construction plans and prepare Specifications and Engineer's Estimate (PS&E) for the Hoh Tribe Resiliency Center Building Project. The Building Project will include engineering and design of a resiliency building including the interior which would have an open gathering space, commercial kitchen, appliances, 5 restrooms, meeting rooms and storage space.
